1. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or fairly suggest the claimed AIN sintered body having a Rmax of at .2 microns or less in combination with the thermal conductivity of 200 W/mK or more. Applicants' argument that the Rmax in Shinosawa et al (6,689,498) is substantially larger than the .2 microns set forth in the claims is persuasive in overcoming the rejection. As argued by applicants the Rmax in Shinosawa et al would be the size of the pit disclosed in Table 7, which at the smallest would be 4 microns.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Karl E. Group whose telephone number is 571-272-1368. The examiner can normally be reached on M-F (6:30-4:00) First Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on 571-272-1233. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
